Summary

As someone who is open to new experiences and opportunities, I tried to experience as many different fields as possible throughout my school life, whether it was the courses I chose or the internships I found to discover myself. As a result of all these various experiences, I discovered that I can easily adapt to innovations and gained a lot of knowledge about business life. Now, one of my biggest wishes is to use these experiences in a valuable field where I can feel myself belong in.

Professional Experience

Energy Trading Assistant Specialist

Gain Energy

Turkey/Ankara March 2025 - December 2025

- Monitoring **power plants** in the day-ahead and intraday markets, and revising production plans to **maximize profits** in line with market dynamics and the plants' own production capacities (taking into account weather conditions and market forecasts).
- Organizing and updating Gain Energy's financial and **operational tables** in Excel on a daily, monthly, and yearly basis.
- **Preparing invoices** in Excel for transactions and ensuring that the prepared invoices are sent to customers.
- Monitoring the **operation of bots** used in Gain Energy's market operations and adjusting their code.

UI / UX Design Intern

YouReply

Turkey/Ankara Nov 2024 - March 2025

- **Improved** the user experience of YouReply's mobile application by **redesigning** the survey solving screens, which are the most frequently used by users.
- Contributed to the website **redesign** to provide clearer information and enhance the profile of the platform for potential customers and users.

UI / UX Intern

Max FM

Turkey/Ankara September 2024 - October 2024

- Update and revise Max FM's website designs to align with the **brand identity** and provide a positive user experience.
